The Chairperson, Deputy Philemon Rodrigues, from Brazil, welcomed the delegates present. He observed that the purpose of the meeting was to discuss the draft suggested by the Brazilian delegation for the Brasilia

Declaration, and that the approved proposal would be forwarded to the Steering Committee before it was submitted to appreciation by the Third Plenary Session.

Upon the opening of draft discussion, a number of considerations were made by the members present.

Deputy Kudeb Saikrachang, from Thailand, requested that, in the second paragraph of the Brasilia Declaration proposed, it was given emphasis not only to the multilateral nature of the Association, but mainly to the parliamentary nature thereof. He also suggested a number of alterations having a wording nature, for providing more clearness to the text. The changes were adopted by the plenary session.

Senator Angel Tilvar, from Romania, suggested the suppression of item 7 from the draft, which emphasized that the Parliaments of member countries should act in harmony with the local industry to the effect of discussing and approving industrial policies intended to ICT furtherance. He argued that, as it was written, the text is not in compliance with free trade principles. The request was adopted by the members of the Committee.

In connection with item 12 of the draft, the Parliamentarian of the Republic of Korea, Kim Nag Soon, emphasized that the Association should not ratify the importance of adopting all guidelines proposed in the World Summit on the Information Society, but only those related to digital inclusion. The proposal was approved.

After considerations, a conclusion was come towards the approval of the draft of the Brasilia Declaration, with the proposed alterations, as attached. The approved text shall be submitted to the appreciation by the Steering Committee before review by the General Assembly.

Deputy Philemon Rodrigues thanked the participation of those present.
The meeting was adjourned at 7:05 p.m.
